**BLDC** – the new-age technology for a smart generation.

BLDC or Brush-less Direct Current is a Fan-wise technology from Orpat. Designed to outperform other fans, BLDC fans are energy-savers with a hassle-free, long life. Powered by a silent electronic motor and not brushes, these fans operate smoothly without any friction. This means uninterrupted, cooler air is generated and less energy is used. Say goodbye to frequent repairs or parts replacements and high electricity bills. Say hello to the coolest life ahead.

**Ester**, an aerodynamic marvel, is inspired by the

fictional, futuristic aircraft in a space-age thriller. As the Greek

word suggests, Orpat's Ester Fan is a true star performer.

Constructed for powerful rotation, the blades are fashioned

like propellers to spin in a friction-less way and circulate the

air precisely. This ensures multi-directional airflow and

high-speed release of cooler breeze. The electronic motor

ensures quiet, smooth operation and durability. You won't

find a competitor worthy of Ester in the galaxy of fans.

**OceanBreeze** – a phenomenon that is most inviting

on a hot summer's day. The breeze on the ocean magically

transports one to a vacation-state-of-mind. It gently caresses

the skin, blowing gently to erase the scorching heat of the sun.

Sway to the refreshing coziness of Orpat's OceanBreeze

fans. It heralds all things cool. From awakening your senses

with a fresh gust of bracing air to making any room a haven of

comfort. Come, get blown away with its aerodynamic features

and smooth functioning.

**GreenLeaf.** Nature's creator of oxygen, and the lungs

of the planet. Without them, life as we know it would cease to

exist. They give clean air to all and absorb the carbon dioxide

that is toxic to life. Taking a leaf out of this system, Orpat's

GreenLeaf Fans bring the outdoor purified air, indoors. With

precision-crafted, broad, flattened leaf-shaped blades, it

evenly circulates the air with a wide span ventilation,

consuming less energy. Show your eco-friendly side with

GreenLeaf - exquisite wood-finish tropical designer fans.
