- 84% Efficiency
- Instant Heating

20-Min Timer Protection

Child Lock Safety Device

1 Kg Copper Heat Exchanger For Faster Heating

Low Water Pressure Technology

Flame Out Protection

High Water Pressure Protection

Suitable For Multi-storied Building up to 8 Bar Pressure

Anti-Dry Burning Protection

Colour : Grey

OGG 6L P

NEW

- Child Safety Lock
- Flame Failure Protection
- 1 Kg. Copper Heat Exchanger
- Flue Type
- Summer - Winter Mode
- Safe & Convenient Ignition
- Stainless Steel Burner
- Mesh On Water Inlet, Gas Inlet And Chimney
- 3-Row Burner With Double Ignition
- Unique Safety Features
 - Thermal Cut-off For Overheat Protection
 - Auto 20-Minute OFF timer
 - PRV Valve for Safety
- Instant Heating

20-Min Timer Protection

Child Lock Safety Device

1 Kg Copper Heat Exchanger For Faster Heating

Low Water Pressure Technology

Flame Out Protection

High Water Pressure Protection

Suitable For Multi-storied Building up to 8 Bar Pressure

Anti-Dry Burning Protection

Colour : Grey

Performance Figures : Supply Voltage at 230Volt, 50Hz, 1Ø AC

Performance Figures : Supply Voltage at 230Volt, 50Hz, 1Ø AC

Important : To maximize air delivery over the required area, your ORPAT Ceiling Fan should be 2.1 mtrs. or more from the ground and 30 cm or more below the ceiling. For large rooms with more than one fans the centre distance between each will depend on sweep.

Sweep :	1400mm	1320mm	1200mm	900mm	600mm
Centre Distance :	3 mtrs.	2.7 mtrs.	2.5 mtrs.	1.8 mtrs.	1.5 mtrs.

Note : Select the correct ORPAT Ceiling Fan with appropriate room size & required performance. 1200mm sweep ceiling fan is generally for : 3 x 4 mtrs. to 3.65 x 3.65 mtrs. room sizes.
