BLDC – the new-age technology for a smart generation.

BLDC or Brush-less Direct Current is a Fan-wise technology from Orpat. Designed to outperform other fans, BLDC fans are energy-savers with a hassle-free, long life. Powered by a silent electronic motor and not brushes, these fans operate smoothly without any friction. This means uninterrupted, cooler air is generated and less energy is used. Say goodbye to frequent repairs or parts replacements and high electricity bills. Say hello to the coolest life ahead.

Seastorm. Breeze is for gentle days. But for scorching summers and unexpected dry weather, there's always Sea Storm. True to its name, Sea Storm, literally cooks up a storm in your living room, refreshing you in a matter of seconds with its speed and strength. Sea Storm has the biggest blade span that ensures more air flow. Available in two brilliant wooden textures and two dazzling colors, this 5-star rated fan from Orpat is the perfect choice to adorn your drawing room. Bring in a gust of strong wind when you need it most while keeping your home energy efficient and saving your electricity bill. Sea Storm – a fan that keeps your home cool and airy in all weathers.

Lelantos. This unique product has been inspired from the Greek God Of Air. Just like Lelantos, whose every movement encompassed a silent flow of air that sustained life across the planet, Lelantos from Orpat moves with extreme precision while ensuring clean, purified air in every corner of the house. Available in teakwood, birchwood as well as in colors such as Charcoal Grey and Himalayan White, it's a treat to bring a Lelantos home. Lelantos is much more than meets the eye. The God of Air, moved swiftly and silently. So does our fan. Lelantos works silently while reducing the cost of your electricity bill. When it's on inverter mode, Lelantos runs three times faster. Experience the smoothness and beauty of a Lelantos Fan while enjoying a cool breeze.

Ester, an aerodynamic marvel, is inspired by the fictional, futuristic aircraft in a space-age thriller. As the Greek word suggests, Orpat's Ester Fan is a true star performer.

Constructed for powerful rotation, the blades are fashioned like propellers to spin in a friction-less way and circulate the air precisely. This ensures multi-directional airflow and high-speed release of cooler breeze. The electronic motor ensures quiet, smooth operation and durability. You won't find a competitor worthy of Ester in the galaxy of fans.

OceanBreeze - a phenomenon that is most inviting

on a hot summer's day. The breeze on the ocean magically

transports one to a vacation-state-of-mind. It gently caresses

the skin, blowing gently to erase the scorching heat of the sun.

Sway to the refreshing coziness of Orpat's OceanBreeze

fans. It heralds all things cool. From awakening your senses

with a fresh gust of bracing air to making any room a haven of

comfort. Come, get blown away with its aerodynamic features

and smooth functioning.

GreenLeaf. Nature's creator of oxygen, and the lungs

of the planet. Without them, life as we know it would cease to

exist. They give clean air to all and absorb the carbon dioxide

that is toxic to life. Taking a leaf out of this system, Orpat's

GreenLeaf Fans bring the outdoor purified air, indoors. With

precision-crafted, broad, flattened leaf-shaped blades, it

evenly circulates the air with a wide span ventilation,

consuming less energy. Show your eco-friendly side with

GreenLeaf - exquisite wood-finish tropical designer fans.
